Dear Community Members,

The Help Book 4th Edition, a Health and Human Services Resource Guide, is sponsored once again by our Phoenixville Community Health Foundation and has been developed through a grant relationship with Open Hearth, Inc. The Foundation's service area includes the Greater Phoenixville, Spring City, East Vincent, West Vincent, North Coventry, South Coventry, Royersford, Colledgeville/Trappe and Limerick communities. The purpose of this resource book is to help increase access to services for adults and children in the service area by making information about health and human services available in a comprehensive and convenient written form.

While this information is available on-line through the Internet, we also know that there are many people in the service area who do not have computers or who are intimidated by the thought of using them to find information that they may need. Thus, we have printed more than 43,000 copies of the resource guide and have mailed them to every household in these zip code areas. The resource guide will also be available free to area nonprofit organizations, and at public places such as banks, grocery stores, and churches.

To insure that it reaches out to the growing Latino population, we have published over 3,000 copies of the resource guide in Spanish and are taking steps to insure that every area Latino family and individual is aware of its availability.

It is the hope of the Foundation and of Open Hearth, Inc. that you will refer to *The Help Book 4th Edition* whenever the need to find assistance for your family and friends arises. We urge you to keep it in a convenient place near your telephone. We feel privileged to have the opportunity of offering this resource guide to help increase service access. We wish you much success in using it for the benefit of yourself, your family and your friends.

Sincerely,

Louis J. Beccaria, Ph.D.
President and CEO

How to Use “The Help Book”

The fourth edition of “The Help Book” contains comprehensive data on over 300 health and human service agencies and programs, providing over a thousand services to the people of Phoenixville, Spring City, the Vincents, the Coventrys, Royersford, Colledgeville and the surrounding area.

“The Help Book” is divided into the following sections:

Quick Reference Pages: Provide *non-emergency* (administrative) contact numbers for helpful government and private services.

Subject/Category Index: Provides a listing of services or needs along with the names and page numbers of programs or agencies that can assist you.

Alphabetical Listings: Provides listings in alphabetical order of all agencies that provided information for “The Help Book”. Each agency had the opportunity to provide complete information on their services and programs. Agencies listed under the category “Information and Referral” are able to help you locate or receive the assistance you need, and can help you if you are not sure what you may need or where you should turn.

Although comprehensive information on each agency has been provided, we encourage you to contact the agencies directly for specific information on their services and programs. Every effort has been made to provide accurate information; however, though deemed reliable, this information is subject to cost increases, error or revision and cannot be guaranteed. For your organization to be considered to be included in a future edition of The Help Book, please contact Open Hearth at 610-792-9282.

Most organizations listed in the Help Book will gladly consider your volunteer assistance if you would like to help. In fact, many agencies depend on your volunteer support. Please contact the agency directly for further information!
